

Hi Chapin, Just wanted to thank you for exceeding our expectations on the "Mansion Garage". We thought we knew what to expect from all the pictures that our neighbor sent, but we didn't realize how truly wonderful the place is, until we stepped through the door. Building from 1,000 miles away could have been a horrendous experience, but, you, Gary, Michael, and the rest of your team were awesome. (Maybe your team felt the stress of having to make some of the decisions, we were blissfully unaware).

Unfortunately, leaving SC on Saturday was very difficult... We're thinking of trying to move up the retirement date!! Anyway, we know that the garage apartment will serve us well in the near future, as we look forward to planning the house. Thanks again for making this all so easy. Kathy
