

Lake Home Completion – Thank you Phillips Brothers

After purchasing our property on the lake, we spent some time seeking house plans that would satisfy our dreams and desires of owning a home there. It was only natural we would take care and caution choosing a builder. We have been most happy with Phillips Brothers and quite satisfied with our decision.

As we watched our home progress and take shape it was obvious this company takes pride in their work as was evident throughout the process. The ideas, suggestions and insight offered were most helpful and the attention to detail was noted and appreciated. The quality of craftsmanship has become a trademark of Phillips Brothers in our book.

After months of making decisions and watching our new home come to completion, it was quite rewarding to visit the lake and know we could stay the weekend. I am sure the finished product will be a source of pride and contentment for us for many years.
